Portfolio: nandini1208.github.io/Portfolio/

PROFESSIONAL SUMMARY

Results-driven .NET Full Stack Developer with 1+ years of hands-on experience in designing, developing, and maintaining scalable web applications. Strong expertise in C#, .NET Core, OOPs, ASP.NET MVC, RESTful API development, and database management using MySQL and SQL Server. Proven experience in building large-scale web scraping systems, implementing multithreaded solutions, optimizing performance, and maintaining high-availability systems for global enterprise clients.

PROFESSIONAL EXPERIENCE

Full Stack Development Apprentice — *ThinkBridge, Pune* Nov 2025 – Present

- Gained hands-on experience in full stack development using HTML5, CSS3, JavaScript, and Angular
- Worked on component-based UI development and client-side routing in Angular applications
- Integrated frontend components with RESTful APIs
- Debugged and resolved functional and logical issues in JavaScript codebases
- Improved application performance through code optimization and refactoring
- Followed agile development practices and participated in sprint-based delivery
- Used Git for version control and followed clean coding standards

Software Developer — *Blu Parrot Venture Pvt. Ltd., Gurugram* Oct 2024 – Aug 2025

- Worked as primary client point of contact for a high-impact project involving **2000+ large-scale web scrapers** built using C# and .NET
- Designed and implemented scalable scraping architecture with multithreaded execution
- Built monitoring dashboards and validation rules to ensure data accuracy and reliability
- Implemented caching mechanisms to enhance performance and reduce system load
- Handled deployment, monitoring, and maintenance for global e-commerce platforms
- Ensured system stability and reliability with **99% uptime**
- Collaborated with international stakeholders to gather requirements and provide technical solutions
- Created detailed technical documentation for long-term maintenance and support

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, TypeScript, Python, HTML5, CSS3

Frameworks & Libraries: .NET Core, ASP.NET MVC, Angular, Bootstrap, Entity Framework

Databases: MySQL, SQL Server

Tools & Platforms: Git, GitHub, Postman, Swagger, AWS

Core Competencies: REST API Design, Web Scraping, Multithreading, Performance Optimization, Debugging, OOPs

PERSONAL PROJECTS

Full Stack Task Management System

- Backend-focused application developed using .NET Core and ASP.NET MVC
- Designed and implemented RESTful APIs for task creation, update, deletion, and retrieval
- Implemented authentication, authorization, and role-based access control
- Applied clean architecture principles and separation of concerns

Recipe Manager Web Application

- Developed client-side web application using browser local storage
- Implemented DOM manipulation, form validation, and state management
- [View Live Project](#)

EDUCATION

Master of Computer Applications (MCA), P.S.I.T., Kanpur

2021 – 2023

Bachelor of Computer Applications (BCA), U.I.E.T., Kanpur

2017 – 2020

CERTIFICATIONS & LEARNING

- Microsoft Azure Fundamentals (AZ-900) – In Progress
- Microsoft ASP.NET Core Web API Development
- Web Development – CodSoft
- Engineering Equity Hackathon – Virtusa
